Deadline for submissions is August 12, 2024, 12:00 pm

PLEASE NOTE: Only those selected for an interview will be contacted. All applicants must be legally entitled to live and work in Canada.

As the Information Technology Manager reporting directly to our Regional Fire Chief, you're not just filling a position - you're becoming a pivotal part of our team. BRFA is a dynamic and diverse organization with over 150 amazing individuals across 7 stations, operating in 3 main divisions: 911, EMS, and Fire. And you? You're the tech wizard who'll keep our digital world running.

Your Role:

- **Be our Tech Guru:** You'll be the go-to person for all things IT. Overseeing the hardware and software that keeps our organization running smoothly will be your domain.
- **Advisor and Innovator:** Your insights will guide us. You'll listen to what our people need, work with our leadership team, and come up with tech solutions that really make a difference.
- **Safety Net Creator:** With you at the helm, our digital assets will be safe and sound. You'll set up disaster recovery plans and ensure our information security is top-notch.
- **Performance Monitor:** You'll keep an eagle eye on our IT systems every day, ensuring everything from computers to networks is functioning perfectly.
- **Strategic Thinker:** We're counting on you to recommend strategies and policies that keep us ahead of the curve. Spotting trends and anticipating needs? That's your forte.
- **Budget Whisperer:** Managing our IT budget effectively and efficiently? You've got this.
- **Tech Trendsetter:** You'll always have your finger on the pulse of new IT developments, keeping us up-to-date and ahead of the game.
- **Quality Champion:** Setting and enforcing standards that uphold our top-notch service? That's all you.
- **Emergency Responder:** When tech crises strike, you're our superhero, ready to troubleshoot at a moment's notice.

Educational Background: You've got a university degree or college diploma in Computer Sciences or something similar like Network Administration, Systems Administration, Information Security.

Experience: Five years of experience makes you the pro we need, especially if you've worked in telecommunications, municipal or emergency services setting.

Clearances: Enhanced security clearance and a current driver's abstract are part of the deal.
